Why choose Merino Marine Board?

- 01 Ultra-High Resistance to Moisture**
40% Higher Moisture Resistance than Green Colour Board available in the market. 40% less linear expansion than Green Board when soaked in water for 2 hours. Makes it fit to use in damp conditions
- 02 Withstands Boiling Water**
Maintains structural integrity even after being kept in boiling water for 2 hours
- 03 Warp Resistance**
Retains shape & dimensional stability by ensuring uniform density across the board surface
- 04 Superior Screw Holding and Re-Screwing Capability**
Holds screw firmly. Chip weave technology provides superior grip of screw. Allows for repeat screwing more than 5 times without loss of grip

- 05 Easy-to-Finish Surface**
Easy to paint. Comes with a paintable and polishable surface, suitable for Direct PU coating or Duco finishing - no primer or extra treatment needed
- 06 Health Friendly**
Does not cause cancer due to ultra-low formaldehyde emission, a known carcinogenic element (as declared by World Health Organisation)
- 07 Termite Resistant**
Created with advanced process making it Termite Resistant. Ensures peace of mind for customers
- 08 Sustainable Manufacturing**
Made from 100% managed Agro-Forestry thereby protecting planet

Where To Use?

KITCHEN

BEDROOM

WARDROBE

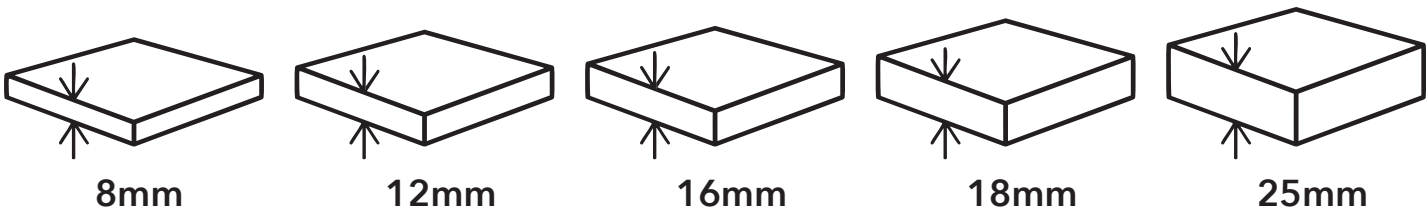

OFFICES

Range Availability

Available across multiple thicknesses

Available in 8ft x 4ft as standard offering

***Warranty : 12 Years**
